

ANALYZING TEACHING for STUDENT RESULTS (ATSR)

Reflecting the national shift towards **learning-focused supervision and evaluation**, the Analyzing Teaching for Student Results (ATSR) program helps leaders zero in on high-leverage teaching strategies that **make a difference to student learning**. During the program, participants examine and use both **a common language and a concept system** about teaching to support any state framework. The seven-day curriculum provides multiple opportunities for participants to develop keen observation and analytical skills that will support teachers in building their own capacity to impact students' learning.

To ensure the alignment of our work with our national client base, crosswalks between *The Skillful Teacher* and various states' and leading educators' evaluation standards and models have been developed and are available at www.RBTeach.com for course participants.

OUTCOMES

As a result of taking this program, participants will be able to:

- Name, explain, and document what **high-expertise teachers know and can do** in many performance areas from classroom management to planning standards-based lessons and assessments
- Capture salient classroom events in **literal notes**
- Connect teacher behavior and decision-making with **impact on student learning**
- Give teachers evidence-based feedback that **builds their capacity as high-expertise teachers** and stimulates reflection
- Use **multiple data sources** to assess growth opportunities and help meet new requirements for teacher goal-setting and improvement planning

42 HOUR PROGRAM (7-Days) *plus site visit*

Participants completing all program requirements are eligible to receive graduate credits for an additional cost through Fitchburg State University

"The course is simply outstanding. All material/reading/experiences were meaningful to my own professional development. I feel much more equipped to evaluate and supervise teachers in an effective way. Thank you for a wonderful learning experience."

—Course Participant

AUDIENCE

- Administrators
- Instructional Coaches
- Teacher Leaders
- Support Staff

ANALYZING TEACHING for STUDENT RESULTS (ATSR)

FORMAT

Practice exercises, video clips, case studies, collegial problem-solving, and fieldwork that are used all emphasize a range of instructional leadership skills. ATSR also includes a site visit to participants working within a 90-mile radius of the program location.
